Teacher of the Year;
Booker T. Washington
Magnet High School

Dr. Linda Harklau
Professor, Department of
Language & Literacy Edu-
cation, University of Geor-
gia

The Call for Proposals for the annual GATESOL Conference is now open. Proposals will accepted through the beginning of May, and we at Georgia TESOL hope you will make your submission and plan to join us for the 2010 conference.

This year's plenary speakers (see left column) will provide valuable information regarding how we can be more aware of the risks and rewards of English as a global language, how we can professionalize and advocate ESL teaching and training, how we can motivate our students, and how we can best serve ELLs as they move from middle school to high school and beyond.

This year's theme: The conference provides an outstanding opportunity to *teach, learn and reach* higher and higher to be the best TESOL professionals we can be. With the "Beyond Borders" theme, we encourage you to think not only of geographical *borders* but also cultural boundaries and other types of boundaries that may need to be crossed: the border from one proficiency level to the next, the line between failure and success, the separations that exist between educational institutes serving different student populations, etc. The idea of *beyond* is also an important part of the theme; we want to hear about innovative research and classroom practices designed to push our teachers and our students beyond their current abilities.

Members: \$125.00
Non-Members: \$160.00
